

## LOGISTICS SERVICES

In today's complex global military and government operations, logistics and asset management can quickly make or break missions. It's that simple. And it's a challenge made even greater as the number, complexity, mobility and value of your assets can change overnight. This is an environment where TUVAs agile multi-functional logistics subject matter experts, research analysts and IT systems personnel thrive.

We're trusted to develop leading edge Concept-of-Operations, policy, business rules and implementation plans for material management operations in environments of acute budget constraints. We develop key performance metrics across a wide array of operations, conduct trend analysis and causal relationships to help organizations stay ahead of requirements. We provide secure linkage, alignment and reporting of global transportation, maintenance, material and inventory assets to achieve desired strategic outcomes. And we develop cost/benefit analysis platforms that fully integrate and synchronize management processes for materiel distribution and redistribution at today's best value. Simply put, with TUVAs, you'll have the vision to locate, manage, move and maintain each of your assets securely at peak productivity levels and best value over every aspect of their lifecycle—from planning and acquisition, through deployment to final retirement and disposal. This is the TUVAs difference.

- Lifecycle Logistics & Policy Research, Development & Review
- Technical Program Management
- Secure Supply Chain
- Cost/Benefit Analysis
- Metrics

## Flexible, cost-smart multi-functional logistics solutions

### ABOUT TUVAs

#### Enabling agile, flexible and more responsive government relations

Today's government and DoD environments are the most complex and demanding ever. And while they always required the secure and constant alignment of information technology with business goals, new requirements including WiFi, multimedia, Telepresence, BYOD, interagency policy development and federated enterprises have made IT and both cyber and security more interdependent than ever. It is this new environment—an environment that is driving the most critical operations at today's most forward looking agencies—that drives the daily work at TUVAs. The result: We enable our customers better anticipate and manage change, reduce costs and become more agile and responsive to the organizations and citizens that they serve.

#### Contracting advantages

As an SBA certified 8(a) Alaskan Native Corporation (ANC), TUVAs offers customers the following contract advantages:

- Direct negotiated contracts
- No award dollar limits\*
- No award protest for sole-source contracts
- Simplified and accelerated procurements

\*A J&A is required for sole source awards greater than \$22 million.
